

THE TRACK: State-of-Charge Indicator Pendant

Preliminary Technical Datasheet

| Technical Specifications | |
|---------------------------|-------------------------------|
| Model No. | THE TRACK |
| Part No. | URX-X5 |
| Operating Temperature | 0°C to +50°C |
| Display Size | 2.4in |
| Size | Width: 100mm (3.94in) |
| | Depth: 22mm (0.87in) |
| | Height: 56mm (2.22in) |
| Connection (Power System) | RJ45 female |
| Certifications | IEC 60601-1 (Pending) |
| Compatibility | Ultralife URS-X5 Power System |

Benefits & Features

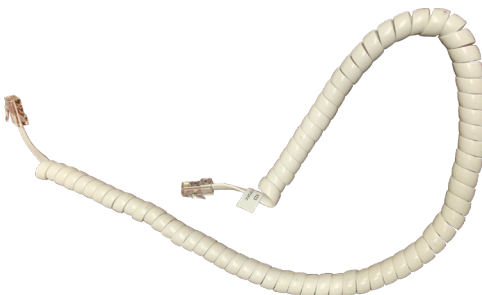

- RJ45 female connector allows the pendant to be easily added or removed from the power system
- State-of-charge indicators for two batteries connected to the power system (shown as both a percentage and a bar)
- Separate state-of-charge indicator for the power system's internal hold-up battery
- Indicator shows when the power system is plugged into AC mains
- Capacitive touch backlight brightness and night mode buttons

Applications

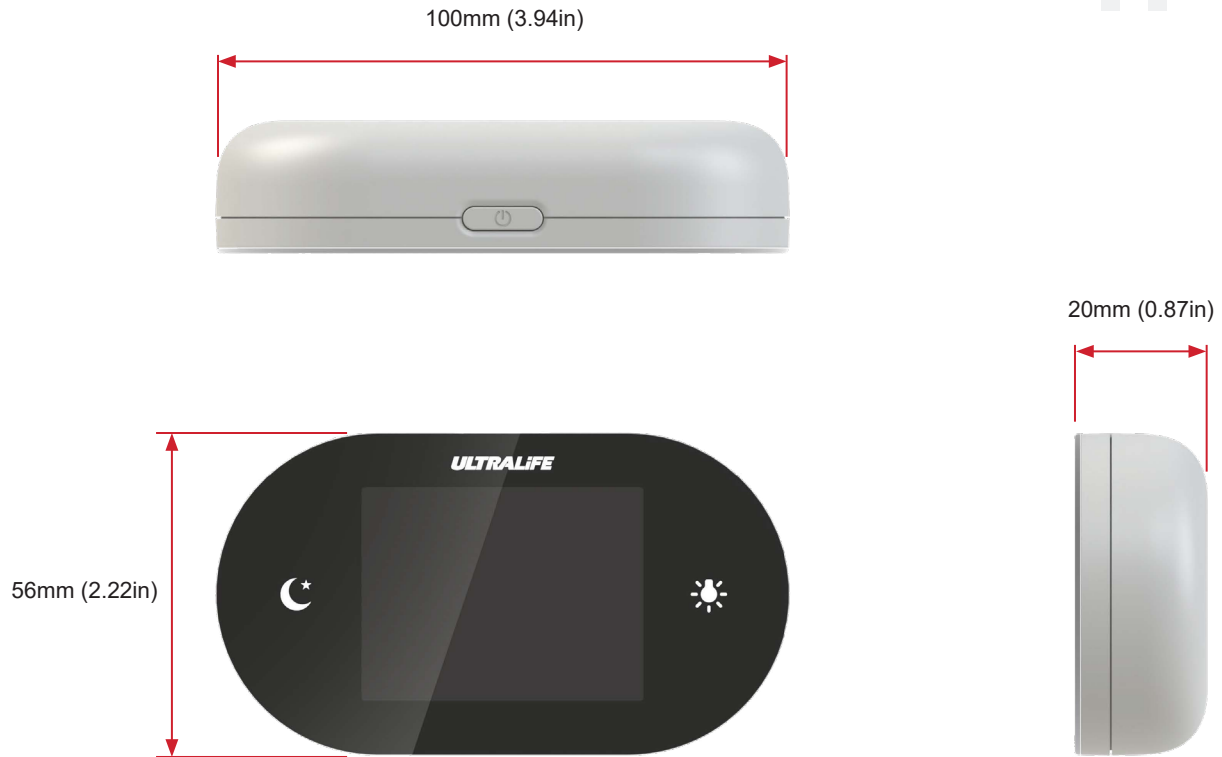

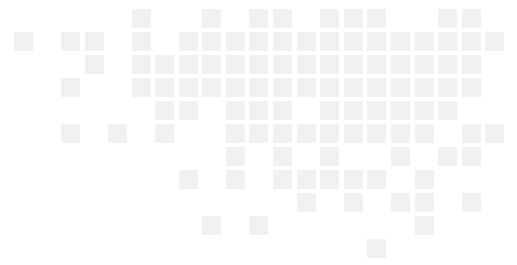

- URS-X5 power system

Included Cable

- 58210790 (see image below)
